HR & People Operations Leadership Lucky One / Lucky Core Industries Karachi

Subject: Proposal for a 6 Month Hybrid Corporate Vitality & Energy Strategy

Dear Head of HR & People Operations,

At about 2 PM every working day, focus drops, decisions slow, and the afternoon becomes harder than it should be. Much of that crash comes from what, when and how much people eat and drink, and that part can be changed. I am writing to propose a six month program that does exactly that for Lucky's employees, and that gives you numbers to show for it.

I am a nutritionist with a BS in Human Nutrition & Dietetics (CGPA 3.89) and the Hakim Muhammad Said Shaheed Gold Medal. I have led workforce energy and productivity workshops as a Corporate Wellness Trainer at Xynotech, and I have served as a Health & Nutrition Trainer at Alkhidmat Foundation Pakistan and Alkhidmat Aghosh Home and as a Session Lead at the Trust for Malnutrition and Stunted Growth. Alongside this, I have completed the Aspire Leadership Program, pioneered by Harvard faculty, and the McKinsey Forward Learning Program. I was a Top 10 winner at the Youth Innovation Challenge of the Prime Minister's Youth Programme. This mix means I can teach nutrition clearly and report results the way leadership expects.

The enclosed proposal sets out a hybrid design: one onsite masterclass a month for six months, supported by simple remote nutrition tracking in between. HR receives an anonymised dashboard every month and a final impact report comparing results with a baseline. The total investment is PKR 380,000, with each masterclass priced at PKR 25,000. The proposal also covers the SWOT analysis, timeline, risks, and a Ramadan session in Month 3.

I would welcome 30 minutes to understand your priorities, shifts and sites, and to adjust the plan to fit. Please let me know a time that suits you, and I will work around your calendar.

Thank you for your time and consideration.

Warm regards,

Hareem Fatima Nutrition & Corporate Wellness Consultant
